

GASOLINE TANKS GREATER THAN 550 GALLONS AND LESS THAN 1500 GALLONS

Applicable Requirements and Compliance Certification Gasoline Tanks Located in the Ventura County Air Pollution Control District

Tanks meeting the following criteria:

- Tanks with a capacity of greater than or equal to 550 gallons and less than or equal to 1500 gallons not used exclusively for wind machines, and
- Tanks used exclusively for agricultural operations with a gasoline throughput that has not exceeded 10,000 gallons per rolling thirty (30) day period

This form may be used in lieu of standard form “Part D – Compliance Certification.” If you choose to use this form, it must be accompanied by the “General Farming” form, and other equipment and operations forms as applicable. Refer to the attached Ventura County – Part D instructions for more information.

1. Equipment Description: Describe gasoline tanks.			
	Tank Designation	Capacity (gallons)	Aboveground or Underground
Example	South Tank One	1,000	Aboveground

2. Applicable Requirement(s) Applicable Rule number that the gasoline tanks must comply with.	3. Compliance Determination Method This is the primary method used to determine the tank is in compliance with the applicable requirement.	4. Compliance Status Please check the appropriate box, and if tanks have varying compliance status, then complete a separate form for each tank.
Rule 70, “Storage and Transfer of Gasoline” <i>Tank must be equipped with permanently installed submerged fill pipe (defined in the rule), with a connection that is free of leaks. (70.B.1)</i>	1. I have knowledge that a submerged fill pipe has been permanently installed, <u>and</u> 2. The fill-pipe is maintained such that the discharge opening is entirely submerged when the liquid level is six inches above the bottom of the tank.	<input type="checkbox"/> in compliance with Rule 70.B.1 and I will continue to comply with all requirements. <input type="checkbox"/> not in compliance with Rule 70.B.1 at this time, but I will be by: _____/_____/_____ If <u>not</u> in compliance, submit plan per instructions.

<p>Rule 70, “Storage and Transfer of Gasoline”</p> <p><i>All open vent pipes on gasoline tanks shall be equipped with a CARB certified pressure-vacuum relief valve. Unless otherwise specified in the applicable CARB executive order, pressure relief shall be set at 3.0 ± 0.5 inches water column and vacuum relief shall be set at 8.0 ± 2.0 inches water column. Vent pipes may be manifolded, pursuant to the applicable CARB executive order, to a single pressure-vacuum relief valve. Pressure-vacuum relief valve(s) shall be properly installed and maintained in good operating order. (70.B.6)</i></p>	<p>1. I have knowledge that a CARB certified pressure-vacuum relief valve has been installed <u>and</u></p> <p>2. I maintain the valve according to manufacturer’s specifications.</p>	<p><input type="checkbox"/> in compliance with Rule 70.B.6 and I will continue to comply with all requirements.</p> <p><input type="checkbox"/> not in compliance with Rule 70.B.6 at this time, but I will be by: _____/_____/_____</p> <p>If <u>not</u> in compliance, submit plan per instructions.</p>
<p>Rule 70, “Storage and Transfer of Gasoline”</p> <p><i>Maintain gasoline throughput such that it does not exceed 10,000 gallons per rolling thirty (30) day period. (70.F.3.a)</i></p> <p><i>Records showing gallons of gasoline loaded for each gasoline delivery to the site shall be maintained and retained on the premises for a period of at least five years.</i></p>	<p>I maintain gasoline throughput records and these records are maintained on the premises for a period of at least five years.</p>	<p><input type="checkbox"/> in compliance with Rule 70.F.3.a and I will continue to comply with all requirements.</p> <p><input type="checkbox"/> not in compliance with Rule 70.F.3.a at this time, but I will be by: _____/_____/_____</p> <p>If <u>not</u> in compliance, submit plan per instructions.</p>
